

Press Release

HPS RECEIVES ISO 27001 CERTIFICATE, BRINGING ADDITIONAL SECURITY TO CLIENTS IN LINE WITH GLOBAL STANDARDS

Casablanca, November 13th, 2019 – HPS, leading multinational provider of payment solutions and services, announces ISO / IEC 27001 certification, an international standard in information security management systems, for all of its Processing and Switching businesses in Morocco (cards and mobile payment).

The ISO 27001 is a global standard that defines the requirements for setting up a system and maintaining an information security management system that aims to protect the functions and information of any organization from loss, theft or alteration, and the computer systems of any computer intrusion and disaster.

This new certification reflects HPS commitment to ensuring the security of its IT systems and thereby guaranteeing the security and data protection of its customers, suppliers and employees.

After the PCI-DSS certification obtained in 2018, HPS continues its strong commitment approach in the service of security issues, at the heart of its strategy and its trusted relationship established with its customers, employees and its ecosystem as a whole.

“We are pleased to announce our reception of the ISO 27001 certificate. Banks and other financial institutions put security at the top of their priorities, and we are proud to be able to reflect this focus in our operation. Being able to make electronic payments safe knowing that your partners are accredited is greatly appreciated in a world where new technology means new threats. We consistently take significant steps in improving our security, shown in this new certificate as well as the renewal of our PCI DSS certificate for HPS Processing Business Line.”
said **Samir Khallouqi, Managing Director – HPS Processing.**

About HPS

HPS is a multinational company and a leading provider of payment solutions and services for issuers, acquirers, card processors, independent sales organisations (ISOs), retailers, mobile network operators (MNOs), and national & regional switches around the world. PowerCARD is HPS comprehensive suite of solutions that covers the entire payment value chain by enabling innovative payments through its open platform that allows the processing of any transaction coming from any channel initiated by any means-of-payment.
